Changing the face
of hospitality with a TV

Samsung Electronics Co., Ltd.
Head Office (Suwon, Korea)
416, Maetan-3 Dong, Yeongtong-Gu,
Suwon City, Gyunggi-Do, 443-742, Korea

This is the version without legal image check. The legal check will be done by March 31th. So please use this version just as reference.

The TV that will help to strengthen
and enhance your hospitality business

For many of your guests, their entertainment world revolves around a TV. So that's why Samsung has taken hospitality TVs to a whole new level. With whole new range of unique features such as smart functionality, superior picture quality, cutting-edge design and eco-friendly features, the Samsung Hospitality TV provides you with a flexible business solution that is scalable so it can grow and evolve with your business and the industry. At the same time, the TV will enhance the perception of your hotel and measure up to the standards of your affluent guests.

Capture the attention of your guests with an immersive 3D experience

Meet the growing demand for the latest in TV technology and the highest picture quality with the Samsung Hospitality TV. It's a TV that will satisfy the needs of your customers for the best picture quality, along with an immersive 3D viewing experience. And because Samsung is on the forefront of 3D technology, your guests will experience the future of home entertainment from the comfort of your room.

Available in various screen sizes, Samsung Hospitality TVs produce Full HD 3D images that are amazingly realistic and bursting with color. 3D HyperReal Engine will ensure that every image is seen the way they were supposed so that every guest has a unique experience.

Enhance the elegance of your hotel rooms

Elevate your guest's viewing pleasure with the eye-catching design of our Samsung Hospitality TV. Created specifically for premium places, the sophisticated design of our TVs will become the focal point of your rooms. The Samsung Hospitality TV utilizes our innovative One Design approach which minimizes the surrounding frame to only 1" in thickness so all you see is what's on the screen. Well-thought out details like this is what will resonate with your affluent guests and elevate your brand for greater prestige.

Increase your bottom line with more energy-efficient features

There are fantastic opportunities for saving energy and reducing costs. Samsung Hospitality TVs are a cost effective business solution due to their energy-efficient features and ability to decrease maintenance and management oversight. Our TVs are filled with a number of energy efficient features that are designed to lower power consumption and your overall energy bill. In addition, the TVs are built with less harmful materials so that the manufacturing and recycling processes are much more efficient and friendlier to the environment.

Planet
First

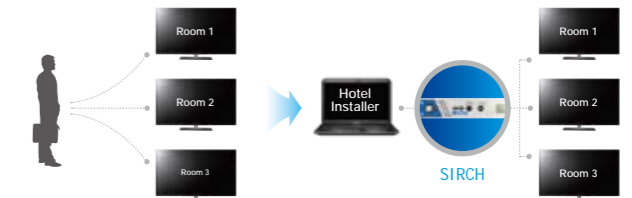

Upgrade your guest's TV experience as well as your business

As HDTVs become more ubiquitous, your guests expect that these types of TVs be in their rooms. At Samsung, we are providing the variety, value, and innovation that will exceed consumer expectations and drive new service and revenue opportunities.

SIRCH

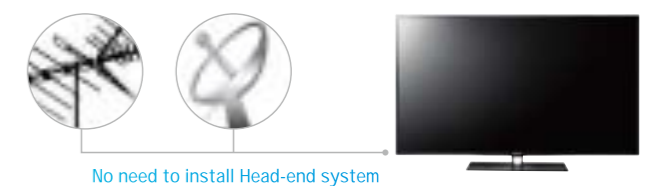

Managed centrally, SIRCH (Samsung Interactive Remote Control for Hospitality) allows TV settings, like limiting volume or updating channel lists, to be configured universally and remotely. Firmware upgrades can also be made in the same way. Making these technical adjustments behind the scenes, while the units are either switched on or in standby mode, provides the best possible experience to the guest eliminating interruption or service limitation and at significantly lower cost when compared to manual alternatives.

DVB -S2/ T2

Broadcasting services like DVB-S2/T2 can only be found in Samsung Hospitality TVs and allow you to provide your guests with a wider range of TV programming, enabling you to deliver local and international satellite services directly to the TV.

* DVB-T2 is available only for the Series 5 580 model in the U.K.

Jack Pack Compatibility

Your guests typically carry a wide variety of electronic devices ranging from MP3 players to digital cameras. Jack Pack solution provides them with a convenient and streamlined way to simultaneously connect an assortment of devices to their TV. Jack Pack works by detecting the connection interface and then automatically converts it to an optimized source. So now every input from Jack Pack is transmitted as an HDMI output.

Enhance your viewing experience with Samsung Wall-mountable Speaker

Samsung Wall-mountable Speaker provides your guests with an enhanced sound experience produced by its 3D Sound technology. With its sleek and sophisticated design, Samsung Wall-mountable Speaker system is the perfect complement to Samsung Hospitality TV enhancing the luxury for your guest's in-room experience. For even greater convenience, your guests can control the TV and speaker with a single remote.

Creating the comfortable stay for your guests

Providing your guests with all the comforts of home will only strengthen their loyalty. It is the detail like increased connectivity and easy-to-use features that will have them coming back for another stay. What's more, the eco-friendly design of the Samsung Hospitality TV provides you with a TV that's extremely gentle on the environment and will ease the recycling process.

Built-In Clock Display

The exterior of the Samsung Hospitality TV is integrated with an easy-to-read external clock. The external clock also has a back-up power supply so your guests don't have to worry about the power going out in the middle of the night. This allows for the clock to accurately run without any external power for up to 72 hours.

Auto Sensing Inputs

Allow your guests to enjoy the convenience of being at home while on the road with the Auto Sensing feature of your Samsung Hospitality TV. Auto Sensing enables the Hospitality TV to automatically detect any compatible digital device that is connected to the TV via HDMI or USB. Now your guests can quickly and easily review their photos, listen to music, watch a movie or even playback a video.

Music Mode

Designed to receive audio from external devices such as MP3 players, our TVs enable the guest to connect and listen to music through a choice of 3 external inputs to the TV.

Bathroom Speaker

With the Samsung Hospitality TV, you can connect the sound to other parts of the room so your guests can listen to whatever's playing on the TV. So if they're in the bathroom, they can enjoy listening to music or hearing the dialogue of a show. Plus, the speaker volume can be pre-set or adjusted according to each guest preferences.

Multi-code Remote

A useful feature of the Samsung Hospitality TV is its ability to support multi-code remote controllers. This feature is particularly useful in situations where there are multiple users in the same room, like a gym, so up to 9 different TVs can be controlled individually.

* Standalone mode only

Eco-friendly Design

Samsung has taken an eco-friendly approach when designing their new line of Hospitality TVs. Conventional TVs typically use spray paint, which contains Volatile Organic Compounds (VOCs) and emits hazardous pollutants during the manufacturing process. Samsung's unique Crystal design uses its unique dual Injection Technology, which does not use spray paint and is almost entirely recyclable.

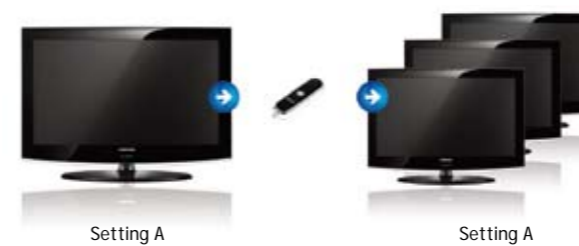

Delivering convenience and efficiency to you and your business

The Samsung Hospitality TV helps to minimize operational costs by providing a range of convenient and efficient features that will benefit you and your business. From installation to maintenance, and programming to security, our hospitality TV will protect and grow your business. And the eco-friendly features will also ensure that your TVs are running as efficiently as possible.

USB Cloning Device

To help you work more efficiently, the innovative, built-in USB Cloning Device allows you to easily customize and then copy the settings onto all of your TVs, instead of doing this individually. That includes your logos, picture size, speaker volume and even DTV channels.

Hotel Logo Display

To provide your guests with a constant, yet subtle, reminder of your property our TV has the ability to display your logo on the TV screen for 3-7 seconds (this time is adjustable) once the TV is turned on. This helps to generate awareness and reinforce your brand. The logos can be uploaded as bitmap onto the TV and can easily be cloned with the USB Cloning Device.

Fire-resistant Casing

To help prevent the deadly damages from a fire, the casings for every Samsung Hospitality TV use a flame retardant material. This life-saving material is able to withstand extremely high temperatures and help protect lives and your property.

Anti-theft Battery Cover

Replacing stolen batteries can become costly over time. That's why our remote controls are designed with special battery covers that are screwed on. So the cover can only be removed with a special screwdriver once the batteries need to be replaced.

Hole for screw in the body of the controller

Energy Efficient

Samsung is setting the standard when it comes to saving energy with its energy-efficient LED TVs. To start, LED technology is already extremely energy efficient. By leveraging that technology for its TVs, Samsung's LED TVs have cut energy consumption by nearly 50% compared to ENERGY STAR 4.0. That means a 55" Samsung LED TV consumes the same amount of energy as a conventional 32" LCD TV!

Easy Installation & Setup

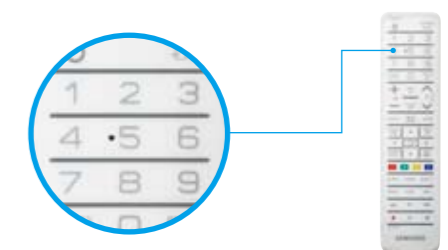

Installation of your new Samsung Hospitality TV is a snap with the easy-to-use onscreen instructions that guide you through the entire process. These step-by-step instructions appear on the screen as soon as the TV is turned on. The instructions are also flexible enough to accommodate additional installation modes and processes for easy customization.

Set Back Box Power Supply

The new line of Samsung Hospitality TVs is capable of supplying power to the set back box located on the back of the TV. So you no longer need to purchase an adapter to power your TVs. The result is a cost-effective TV packaged within a streamlined design.

Samsung PureCare Remote

Hospitals have special needs when it comes to remote controls. The number one goal of every hospital is the desire to minimize the spread and growth of bacteria. The new Samsung PureCare Remote is designed to do that with a wipeable, cleanable surface. Unlike conventional remotes which have gaps in between the buttons, this new remote is completely smooth so hygiene is a priority. The simple, white design also complements the hospital's décor.

A line up worthy of your guests

No matter which way you look at it, we are continuing to lead the way in hospitality TV. For years Samsung has been the leader in innovations aimed at making your guests' stay pleasant and memorable. Our latest line up of Samsung Hospitality TVs provides entertainment solutions that optimize operational efficiency, promote customer satisfaction and improve sustainability.

LCD TV SERIES 5 580

A Full HD LCD TV that supports DVB-T2

The Samsung LCD TV Series 5 580 takes advantage of all of the latest image-enhancing LCD technology to produce amazingly lifelike Full HD images, such as HyperReal Engine and Wide Color Enhancer. It also contains a built-in DVB-T2 which provides clear HD terrestrial broadcasting service without having to purchase a head-end device, keeping additional costs to a minimum. Your guests will also experience a true home theater experience with SRS Theater Sound and additional connectivity capabilities, like USB 2.0 media and HDMI, so that they won't mind staying in bed all day. The LCD TV Series 5 580 is available only in the U.K.

LCD TV SERIES 4 467

HD entertainment with built-in clock and DVB-S2

The Samsung LCD TV Series 4 467 provides your guests with an HD home entertainment experience that makes living away from home a more satisfying experience. With the built-in DVB-S2, it provides your guests with a wider range of TV programming, enabling you to deliver local and international satellite services directly to the TV. Samsung's Crystal TV design approach will also help to elevate and complement the décor of the room. Your guests can enjoy even greater convenience and comfort with the built-in digital clock. In addition, the set back box power supply located on the back of the TV means you no longer need to purchase an adaptor to power it, making it a cost-effective business solution.

LCD TV SERIES 4 463/460

Convenient HD entertainment you can trust

Everyone should have the ability to enjoy an HD home entertainment experience, so why not your guests? With the Samsung LCD TV Series 4 463/460, your guests will experience the viewing pleasure that a typical HDTV would deliver, but in an elegantly designed exterior. The D463 comes in white and includes the Samsung PureCare Remote as standard, giving it a clean, sanitary feel. Samsung's Crystal TV design will also help to elevate and complement the décor of the room.

* Full HD (D460 22"/ D463 22"/ D467 22", 37", 40"), HDMI x3 (Except D46X 22"), Swivel Stand (D46X 32" Over)

Special Feature (463)

- White Design/ Seamless Remote Controller, DVB-T/C, HD (22" FHD)
- SI RCH/USB cloning, USB 2.0 Media (Music/JPEG/Movie), 3HDM (22" 1HDM)
- Bathroom Speaker Out (Except 22"), Jack pack compatibility
- SI system compatibility

Special Feature (460)

- DVB-T/C, HD (22" FHD), SI RCH/USB cloning, USB 2.0 Media (Music/JPEG/Movie)
- 3HDM (22" 1HDM), Bathroom Speaker Out (Except 22")
- Jack pack compatibility, SI system compatibility
